### 2. Construction of New Plant

#### (1) Purpose and background of the construction

Pharma Foods International Co., Ltd. Group is committed to becoming a "leading healthcare company" through its Medium-Term Management Plan 2026, titled the "New Value Creation 1K Project." Since the Company fully acquired Meiji Yakuhin as a wholly owned subsidiary in August 2021, Meiji Yakuhin has been striving to evolve from a contract manufacturer of pharmaceuticals to a pharmaceutical manufacturer.

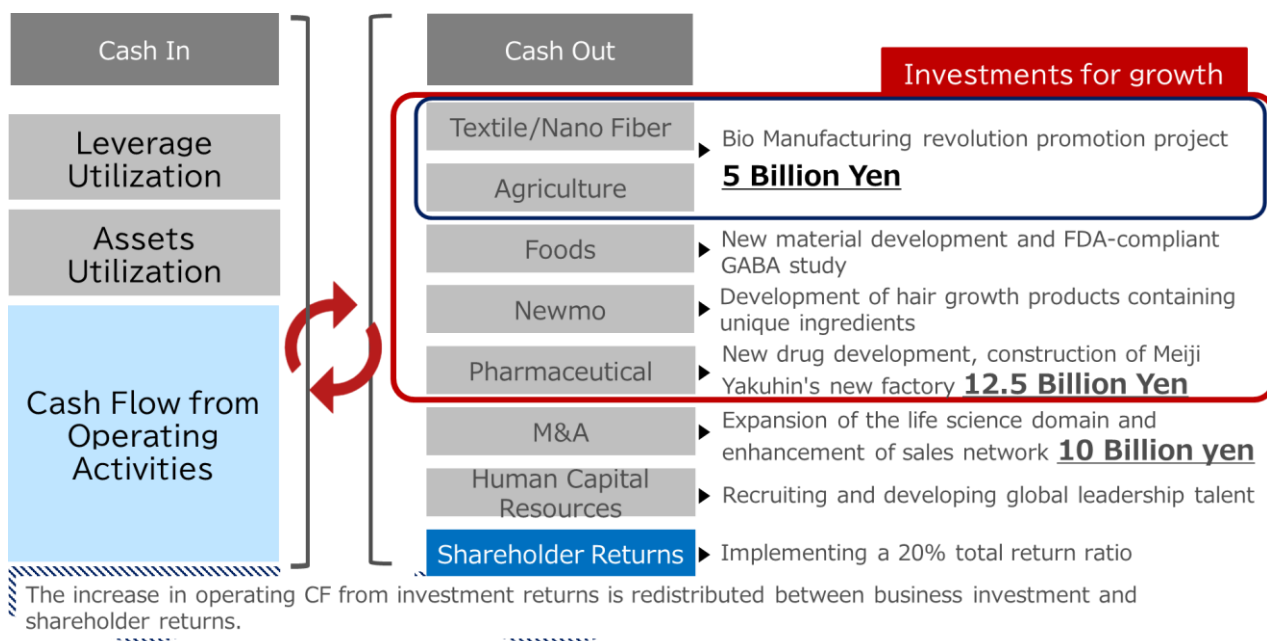

Leveraging the quality and history cultivated through its pharmaceutical manufacturing, and as a result of synergies with our research and sales resources, Meiji Yakuhin's net sales have grown 2.7 times over three years—from JPY 5,335 million for the fiscal year ended May 2021 to JPY 14,151 million for the fiscal year ending July 2024.

Meiji Yakuhin's financial performance over the past three years (Million JPY)			
Fiscal Period	July, 2022	July, 2023	July, 2024
Net Sales	8,923	14,108	14,151
Ordinary Profit	△3,313	1,154	531
Net Profit	△3,355	1,309	153

In particular, the development and sales of Meiji Yakuhin's own brand products have significantly contributed to the growth. The acquisition of new customers for products such as “LACTRON Tablets,” “TENRAI SEIRYU Tablets,” and “ShiboraNight 2” has been progressing favorably, resulting in the number of regular customers increasing 2.9 times as of the end of April 2025 compared to the end of the previous fiscal year.

The Company Group, aiming for further growth, has initiated a bold investment plan totaling approximately JPY 30 billion over the five-year period starting from the fiscal year ending July 2024.

Meiji Yakuhin aims to enhance its production capacity for pharmaceuticals, quasi-drugs, and other products to address common healthcare needs such as gut health, digestion, and urinary concerns through the construction of a new plant with an investment of JPY 12.5 billion. This investment is intended to drive the expansion of its own-brand product sales as well as its pharmaceutical contract manufacturing business. By the fiscal year ending July 2030, Meiji Yakuhin targets net sales of approximately JPY 23 billion.

The Board of Directors of the Company has determined that this plant construction represents a highly significant investment toward realizing the Group's vision of becoming a “leading healthcare company,” and has therefore approved its implementation.
